120 | GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19

Note 2.1 Analysis of Council results by program

Council delivers its functions and activities through the following programs.

2.1 (a) Citizen & Customer Service

The key objective is to foster a culture across the organisation which addressed the needs of the community through communication and the provision of excellent customer service.

Civic Leadership

Civic leadership's objective is to enhance Council's decision making capacity by strengthening the governance and advocacy of Council. Good governance and leadership is supported by planning, delivering and improving high quality, cost effective, accessible and responsible services.

Economic Development

The strategic objective of economic development is to facilitate the growth of the local economy particularly in township development and rural based industries.

Environment & Land use Plan

A key objective is to encourage and facilitate sustainable land use and development and protect and enhance the natural environment. Central to environment and land use is the assessment of development, health and local laws, planning strategy and urban growth.

Financial Management

To ensure the efficient and effective allocation of resources through sound financial planning and management that secures the long-term financial viability of the municipality. This objective is achieved by providing proactive support services across Council which include finance services, digital information and technology, property and procurement, strategy and program delivery.

Human Support Services

To provide a range of sustainable human support services that maintain and enhance the wellbeing and quality of life of Golden Plains Shire residents.

Recreation & Community Development

To facilitate the provision of a range of recreation facilities across the Shire and assist the community committees to best service their communities and to continue to enhance townships through Town Place Plans. To identify and respond to community needs and provide opportunities to enable needs and provide opportunities to enable people in the community to be supported and involved.

Roads & Streets Infrastructure

To maintain and enhance the road network at a level that adequately satisfies transportation needs.

Waste Management

Continue to provide the current satisfactory garbage bin and recycling bin collection disposal service.

122 | GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19

Note 3 Funding for the delivery of our services	2019	2018
3.1 Rates and charges	\$'000	\$'000

Council uses Capital Improved Valuation (CIV) as the basis of valuation of all properties within the municipal district. The CIV of a property is its total market value including land and improvements.

The valuation base used to calculate general rates for 2018/19 was \$4,704 million (2017/18 \$4,554 million).

Total rates and charges	22,951	21,435
Interest on rates and charges	135	128
Supplementary rates and rate adjustments	141	89
Special rates and charges	32	35
Waste management charge	2,885	2,155
Municipal charge	2,375	2,326
General Rates	17,383	16,702

The date of the latest general revaluation of land for rating purposes within the municipal district was 1 January 2019, and the valuation will be first applied in the rating year commencing 1 July 2019.

Annual rates and charges are recognised as revenues when Council issues annual rates notices. Supplementary rates are recognised when a valuation and reassessment is completed and a supplementary rates notice issued.

3.2 Statutory fees and fines

Planing and building fees	487	457
Infringements and costs	92	135
Property information fees	25	28
Land information certificates	24	30
Drainage information fees	39	18
Total statutory fees and fines	667	668

Statutory fees and fines (including parking fees and fines) are recognised as revenue when the service has been provided, the payment is received, or when the penalty has been applied, whichever first occurs.

3.3 User fees

Childcare/Children's Programs	872	1,294
Home and Community Care Fees	172	187
Animal Registration Charges	388	349
Early Childhood Education	224	232
Subdivision Supervision Fees	217	156
Gravel Cartage Levy	161	149
Septic Tank Fees	170	112
Food Premises Registration Fees	79	70
Fire Hazard Eradication Fees and Fines	31	36
Bannockburn Family Services Centre Charges	29	33
Bannockburn Cultural Centre Charges	51	46
Smythesdale Business Hub Centre Charges	30	28
Farmers Market Fees	21	20
Lease of Land	46	63
Other	122	97
Total user fees	2,613	2,872

User fees are recognised as revenue when the service has been provided or council has otherwise earned the income.

Cash and cash equivalents include cash on hand, deposits at call, and other highly liquid investments with original maturities of 90 days or less, net of outstanding bank overdrafts.

Other financial assets are valued at fair value, at balance date. Term deposits are measured at original cost. Any unrealised gains and losses on holdings at balance date are recognised as either a revenue or expense.

GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19 | 129

Tortile rear Effect of the	4110 20 10	
	2019	2018
(c) Trade and other receivables	\$'000	\$'000
Current		
Statutory receivables		
Rates debtors	1,847	1,404
Infringement debtors	207	163
Provision for doubtful debts - infringements	(123)	(74)
Net GST receivable	357	303
Other debtors	1,532	680
Provision for doubtful debts - other debtors	(22)	(58)
Total current trade and other receivables	3,798	2,418

Short term receivables are carried at invoice amount. A provision for doubtful debts is recognised when there is objective evidence that an impairment has occurred. Long term receivables are carried at amortised cost using the effective interest rate method.

(i) Ageing of Receivables

The ageing of the Council's trade & other receivables (excluding statutory receivables) that are r	ot impaired was:	
Current (not yet due)	1,222	534
Past due by up to 30 days	29	12
Past due between 31 and 180 days	115	26
Past due between 181 and 365 days	2	58
Past due by more than 1 year	21	15
Total trade & other receivables	1,389	645

(ii) Ageing of individually impaired Receivables

At balance date, other debtors representing financial assets with a nominal value of \$17,427 (2018: \$53,527) were impaired. The amount of the provision raised against these debtors was \$17,427 (2018: \$53,527). They individually have been impaired as a result of their doubtful collection. Many of the long outstanding past due amounts have been lodged with Council's debt collectors or are on payment arrangements.

The ageing of receivables that have been individually determined as impaired at reporting date was:

Current (not yet due)	-	-
Past due by up to 30 days	-	-
Past due between 31 and 180 days	17	54
Past due between 181 and 365 days	-	-

Refundable deposits	559	289
Total trust funds and deposits	559	289

Amounts received as deposits and retention amounts controlled by Council are recognised as trust funds until they are returned, transferred in accordance with the purpose of the receipt, or forfeited. Trust funds that are forfeited, resulting in council gaining control of the funds, are to be recognised as revenue at the time of forfeit.

Purpose and nature of items

Refundable deposits - Deposits are taken by council as a form of surety in a number of circumstances, including in relation to building works, tender deposits, contract deposits and the use of civic facilities.

Fire Service Levy - Council is the collection agent for fire services levy on behalf of the State Government. Council remits amounts received on a quarterly basis. Amounts disclosed here will be remitted to the state government in line with that process.

Retention Amounts - Council has a contractual right to retain certain amounts until a contractor has met certain requirements or a related warrant or defect period has elapsed. Subject to the satisfactory completion of the contractual obligations, or the elapsing of time, these amounts will be paid to the relevant contractor in line with Council's contractual obligations.

GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19 | 131

5.4 Interest-bearing liabilities		
	2019	2018
Current	\$'000	\$'000
Borrowings - secured	7,349	1,151
	7,349	1,151
Non-current		
Borrowings - secured	297	6,756
	297	6,756
Total	7,646	7,907
Borrowings are secured by Council rates and charges	7,646	7,907
(a) The maturity profile for Council's borrowings is:		
Not later than one year	7,349	1,151
Later than one year and not later than five years	147	6,606
Later than five years	150	150
	7,646	7,907

Borrowings are initially measured at fair value, being the cost of the interest bearing liabilities, net of transaction costs. The measurement basis subsequent to initial recognition depends on whether the Council has categorised its interest-bearing liabilities as either financial liabilities designated at fair value through the profit and loss, or financial liabilities at amortised cost. Any difference between the initial recognised amount and the redemption value is recognised in net result over the period of the borrowing using the effective interest method.

The classification depends on the nature and purpose of the interest bearing liabilities. The Council determines the classification of its interest bearing liabilities at initial recognition.

Aggregate carrying amount of employee provisions:		
Current	3,127	2,868
Non-current	587	320
Total aggregate carrying amount of employee provisions	3,714	3,188

The calculation of employee costs and benefits includes all relevant on-costs and are calculated as follows at reporting date.

Wages and salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulated sick leave expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits in respect of employee services up to the reporting date, classified as current liabilities and measured at their nominal values.

Liabilities that are not expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits as current liabilities, measured at the present value of the amounts expected to be paid when the liabilities are settled using the remuneration rate expected to apply at the time of settlement.

Long service leave

Liability for long service leave (LSL) is recognised in the provision for employee benefits. LSL is measured at present value. Unconditional LSL is disclosed as a current liability. Conditional LSL that has been accrued, where an employee is yet to reach a qualifying term of employment, is disclosed as a non - current liability.

Key assumptions:	2019	2018

Non-current	1,605	1,607
	1,655	1,657

Council is obligated to restore closed Rokewood and Teesdale sites to a particular standard. The provision for landfill restoration has been calculated based on the present value of the expected cost of works to be undertaken. The expected cost of works has been estimated based on current understanding of work required to reinstate the site to a suitable standard. Accordingly, the estimation of the provision required is dependent on the accuracy of the forecast timing of the work, work required and related costs.

Total provisions	6,204	5,825

Council operate Sagohill gravel pit to supply gravel for it's roads and maintenance projects. The gravel pit has a further 28 years of expected life. Provision has been made to rehabilitate the excavated area at the end of the expected life of the quarry. The expected cost of works has been estimated to reinstate the site to a suitable standard, with the estimated rehabilitation costs to be reviewed annually. The provision has been calculated based on the present value of the expected cost of works to be undertaken.

5.6 Commitments

The Council has entered into the following commitments. Commitments are not recognised in the Balance Sheet. Commitments are disclosed at their nominal value and presented inclusive of the GST payable.

GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19 | 139

Acquisition

The purchase method of accounting is used for all acquisitions of assets, being the fair value of assets provided as consideration at the date of acquisition plus any incidental costs attributable to the acquisition. Fair value is the price that would be received to sell an asset (or paid to transfer a liability) in an orderly transaction between market participants at the measurement date.

Where assets are constructed by Council, cost includes all materials used in construction, direct labour, borrowing costs incurred during construction, and an appropriate share of directly attributable variable and fixed overheads.

In accordance with Council's policy, the threshold limits have applied when recognising assets within an applicable asset class and unless otherwise stated are consistent with the prior year.

Land under roads

Council recognises land under roads it controls at fair value.

Depreciation and amortisation

Buildings, land improvements, plant and equipment, infrastructure, and other assets having limited useful lives are systematically depreciated over their useful lives to the Council in a manner which reflects consumption of the service potential embodied in those assets. Estimates of remaining useful lives and residual values are made on a regular basis with major asset classes reassessed annually. Depreciation rates and methods are reviewed annually.

Where assets have separate identifiable components that are subject to regular replacement, these components are assigned distinct useful lives and residual values and a separate depreciation rate is determined for each component.

Road earthworks are not depreciated on the basis that they are assessed as not having a limited useful life.

Straight line depreciation is charged based on the residual useful life as determined each year.

Depreciation periods used are listed below and are consistent with the prior year unless otherwise stated.

Repairs and maintenance

Where the repair relates to the replacement of a component of an asset and the cost exceeds the capitalisation threshold the cost is capitalised and depreciated. The carrying value of the replaced asset is expensed.

Valuation of land and buildings

Valuation of land and buildings were undertaken by a qualified independent valuer Mr Stephen Davey AAPI registration no 63379 in June 2016 and subsequently indexed in June 2019. The valuation of land and buildings is at fair value, being market value based on highest and best use permitted by relevant land planning provisions. Where land use is restricted through existing planning provisions the valuation is reduced to reflect this limitation. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Specialised land is valued at fair value using site values adjusted for englobo (undeveloped and/or unserviced) characteristics, access rights and private interests of other parties and entitlements of infrastructure assets and services. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Any significant movements in the unobservable inputs for land and land under roads will have a significant impact on the fair value of these assets.

The date of the current valuation is detailed in the following table.

Details of the Council's land and buildings and information about the fair value hierarchy as at 30 June 2019 are as follows:

	Level 1	Level2	Level 3	Date of Valuation
Land	45	30,241	-	Jun-19
Specialised land	-	-	4,335	Jun-16
Heritage Buildings	-	-	970	Jun-16
Non - Specialised Buildings	-	-	2,461	Jun-16
Specialised Buildings	-	-	26,144	Jun-16
Total	45	30,241	33,910	

140 GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19

Valuation of infrastructure

Valuation of Roads, Bridges, Footpaths and Drainage infrastructure assets have been determined in accordance with an independent valuation undertaken by Mr Peter Moloney MIE (Aust) as at 30 June 2019.

Valuation of Recreational leisure and community, Park open space and streetscapes and Offstreet carpark infrastructure assets have been undertaken by Mr Stephen Davey AAPI registered Certified Practising Valuer as a part of land and buildings valuation as at 30 June 2016.

The date of the current valuation is detailed in the following table.

The valuation is at fair value based on replacement cost less accumulated depreciation as at the date of valuation.

Details of the Council's infrastructure and information about the fair value hierarchy as at 30 June 2019 are as follows:

Level 1	Level2	Level 3	Date of Valuation
-	-	328,241	Jun-19
-	-	12,794	Jun-19
-	-	11,515	Jun-19
-	-	5,406	Jun-19
	-	6,341	Jun-16
	-	1,077	Jun-16
	-	1,064	Jun-16
	-	414	Jun-19
-	-	366,852	
	- - - - - - -		- 328,241 - 12,794 - 11,515 - 5,406 - 6,341 - 1,077 - 1,064 - 414

Description of significant unobservable inputs into level 3 valuations

Specialised land and land under roads is valued using a market based direct comparison technique. Significant unobservable inputs include the extent and impact of restriction of use and the market cost of land per square metre. The extent and impact of restrictions on use varies and results in a reduction to surrounding land values between 5% and 95%. The market value of land varies significantly depending on the location of the land and the current market conditions. Currently land values range between \$0.03 and \$1,031 per square metre.

Specialised buildings are valued using a depreciated replacement cost technique. Significant unobservable inputs include the current replacement cost and remaining useful lives of buildings. The remaining useful lives of buildings are determined on the basis of the current condition of buildings and vary from 30 years to 150 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of buildings are sensitive to changes in expectations or requirements that could either shorten or extend the useful lives of buildings.

Infrastructure assets are valued based on the depreciated replacement cost. Significant unobservable inputs include the current replacement cost and remaining useful lives of infrastructure. The remaining useful lives of infrastructure assets are determined on the basis of the current condition of the asset and vary from 19 years to 90 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of infrastructure are sensitive to changes in use, expectations or requirements that could either shorten or extend the useful lives of infrastructure assets.

GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19 | 141

	2019	2018
6.2 Investments in associates	\$'000	\$'000
(a) Investments in associates		
Investments in associates accounted for by the equity method are:		
- Equity in Geelong Regional Library (GRL)	724	740
Geelong Regional Library (GRL)		
Background		
Council share of the net equity in GRL is 6.30% (6.23% 2018). The GRL Board is		
comprised of seven representatives from four member Councils. Golden Plains		
Shire Council has one representative on the GRL Board.		
Fair value of Council's investment in Geelong Regional Library	724	740
Council's share of accumulated surplus/(deficit)		
Council's share of accumulated surplus(deficit) at start of year	740	740
Reported surplus(deficit) for year	(16)	-
Council's share of accumulated surplus(deficit) at end of year	724	740
Council's share of expenditure commitments		
Operating commitments	406	417
Council's share of expenditure commitments	406	417

Associates are all entities over which Council has significant influence but not control or joint control. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations each investor has, rather than the legal structure of the joint arrangement.

For joint operations, Council recognises its direct right to, and its share of jointly held assets, liabilities, revenues and expenses of joint operations.

Interests in joint ventures are accounted for using the equity method. Under this method, the interests are initially recognised in the consolidated balance sheet at cost and adjusted thereafter to recognise Council's share of the post-acquisition profits or losses and movements in other comprehensive income in profit or loss and other comprehensive income respectively.

Committees of management

All entities controlled by Council that have material revenues, expenses, assets or liabilities, such as committees of management, have been included in this financial report. Any transactions between these entities and Council have been eliminated in full.

Note 8 Managing uncertainties

8.1 Contingent assets and liabilities

Contingent assets and contingent liabilities are not recognised in the Balance Sheet, but are disclosed by way of note and, if quantifiable, are measured at nominal value. Contingent assets and contingent liabilities are presented inclusive of GST receivable or payable respectively.

(a) Contingent assets

Bank Guarantee - Minister for Energy & Resources

Council has issued a Bank Guarantee for the amount of \$9,000 in favour of the Minister for Energy & Resources for rehabilitation of the De Motts/Jollys Gravel Pit. Council does not believe that the bank guarantee will be exercised.

Bank Guarantee - Department of Sustainability & Environment

Council has issued a Bank Guarantee for the amount of \$37,500 in favour of the Department of Natural Resources & Environment for rehabilitation of the Sago Hill Gravel Pit. Council does not believe that the bank guarantee will be exercised.

Council has issued a Bank Guarantee for the amount of \$17,000 in favour of the Department of Natural Resources & Environment for rehabilitation of the Black Hill Gravel Pit. Council does not believe that the bank guarantee will be exercised.

(b) Contingent liabilities

Superannuation

Council has obligations under a defined benefit superannuation scheme that may result in the need to make additional contributions to the scheme, matters relating to this potential obligation are outlined below. As a result of the volatility in financial markets the likelihood of making such contributions in future periods exists.

(c) Guarantees for loans to other entities

The amount disclosed for financial guarantee in this note is the nominal amount of the underlying loan that is guaranteed by the Council, not the fair value of the financial guarantee.

Financial guarantee contracts are not recognised as a liability in the balance sheet unless the lender has exercised their right to call on the guarantee or Council has other reasons to believe that it is probable that the right will be exercised.

8.2 Change in accounting standards

The following new AAS's have been issued that are not mandatory for the 30 June 2019 reporting period. Council has assessed these pending standards and has identified the following potential impacts will flow from the application of these standards in future reporting periods.

Revenue from contracts with customers (AASB 15) (applies 2019/20 for LG sector)

The standard shifts the focus from the transaction-level to a contract-based approach. Recognition is determined based on what the customer expects to be entitled to (rights and obligations), while measurement encompasses estimation by the entity of the amount expected to be entitled for performing under the contract. The full impact of this standard is not known however it is most likely to impact where contracts extend over time, where there are rights and obligations that may vary the timing or amount of the consideration, or where there are multiple performance elements. This has the potential to impact on the recognition of certain grant income. Total impact on the Statements are expected to be immaterial.

Amendments to Australian Accounting Standards - Deferral of AASB 15 for Not-for-Profit Entities (AASB 2016-7) (applies 2019/20)

This Standard defers the mandatory effective date of AASB 15 for not-for-profit entities from 1 January 2018 to 1 January 2019.

GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19 | 145

Leases (AASB 16) (applies 2019/20)

The classification of leases as either finance leases or operating leases is eliminated for lessees. Leases will be recognised in the Balance Sheet by capitalising the present value of the minimum lease payments and showing a 'right-of-use' asset, while future lease payments will be recognised as a financial liability. The nature of the expense recognised in the profit or loss will change. Rather than being shown as rent, or as leasing costs, it will be recognised as depreciation on the 'right-of-use' asset, and an interest charge on the lease liability. The interest charge will be calculated using the effective interest method, which will result in a gradual reduction of interest expense over the lease term.

Council has elected to adopt the modified retrospective approach to the transition to the new lease standard. This will mean that only existing operating leases for non low value assets, with remaining terms greater than 12 months, will be recognised on transition (1 July 2019). Based on our current lease commitments and an assumption of a continuation of the current leasing arrangements Council expects that the transition to the new standard will see the initial recognition of \$0 in lease related assets and an equivalent liability.

Income of Not-for-Profit Entities (AASB 1058) (applies 2019/20)

This standard is expected to apply to certain transactions currently accounted for under AASB 1004 Contributions and establishes revenue recognition principles for transactions where the consideration to acquire an asset is significantly less than fair value to enable a not-for-profit entity to further its objectives.

8.3 Financial instruments

(a) Objectives and policies

The Council's principal financial instruments comprise cash assets, term deposits, receivables (excluding statutory receivables), payables (excluding statutory payables) and bank borrowings. Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument is disclosed in the Notes of the financial statements. Risk management is carried out by senior management under policies approved by the Council. These policies include identification and analysis of the risk exposure to Council and appropriate procedures, controls and risk minimisation.

146 | GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19

(b) Market risk

Market risk is the risk that the fair value or future cash flows of council financial instruments will fluctuate because of changes in market prices. The Council's exposure to market risk is primarily through interest rate risk with only insignificant exposure to other price risks and no exposure to foreign currency risk.

Interest rate risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. Council's interest rate liability risk arises primarily from long term loans and borrowings at fixed rates which exposes council to fair value interest rate risk / Council does not hold any interest bearing financial instruments that are measured at fair value, and therefore has no exposure to fair value interest rate risk. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Council has minimal exposure to cash flow interest rate risk through its cash and deposits that are at floating rates.

Investment of surplus funds is made with approved financial institutions under the Local Government Act 1989. Council manages interest rate risk by adopting an investment policy that ensures:

- diversification of investment product;
- monitoring of return on investment; and
- benchmarking of returns and comparison with budget

There has been no significant change in the Council's exposure, or its objectives, policies and processes for managing interest rate risk or the methods used to measure this risk from the previous reporting period.

Interest rate movements have not been sufficiently significant during the year to have an impact on the Council's year end result.

(c) Credit risk

Credit risk is the risk that a contracting entity will not complete its obligations under a financial instrument and cause Council to make a financial loss. Council have exposure to credit risk on some financial assets included in the balance sheet. To help manage this risk:

- council have a policy for establishing credit limits for the entities Council deal with;
- council may require collateral where appropriate; and
- council only invest surplus funds with financial institutions which have a recognised credit rating specified in council's investment policy.

Receivables consist of a large number of customers, spread across the ratepayer, business and government sectors. Credit risk associated with the Council's financial assets is minimal because the main debtor is secured by a charge over the rateable property.

There are no material financial assets which are individually determined to be impaired.

Council may also be subject to credit risk for transactions which are not included in the balance sheet, such as when Council provide a guarantee for another party. Details of our contingent liabilities are disclosed in Note 8.1(b).

The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the balance sheet and notes to the financial statements. Council does not hold any collateral.

GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19 | 147

(d) Liquidity risk

Liquidity risk includes the risk that, as a result of council's operational liquidity requirements it will not have sufficient funds to settle a transaction when required or will be forced to sell a financial asset at below value or may be unable to settle or recover a financial asset

To help reduce these risks Council:

- have a liquidity policy which targets a minimum and average level of cash and cash equivalents to be maintained;
- have readily accessible standby facilities and other funding arrangements in place;
- have a liquidity portfolio structure that requires surplus funds to be invested within various bands of liquid instruments;
- monitor budget to actual performance on a regular basis; and
- set limits on borrowings relating to the percentage of loans to rate revenue and percentage of loan principal repayments to rate revenue.

The Council's maximum exposure to liquidity risk is the carrying amounts of financial liabilities as disclosed on the face of the balance sheet and the amounts related to financial guarantees disclosed in Note 8.1(c), and is deemed insignificant based on prior periods' data and current assessment of risk.

There has been no significant change in Council's exposure, or its objectives, policies and processes for managing liquidity risk or the methods used to measure this risk from the previous reporting period.

With the exception of borrowings, all financial liabilities are expected to be settled within normal terms of trade. Details of the maturity profile for borrowings are disclosed at Note 5.4.

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

(e) Sensitivity disclosure analysis

Taking into account past performance, future expectations, economic forecasts, and management's knowledge and experience of the financial markets, Council believes the following movements are 'reasonably possible' over the next 12 months:

- A parallel shift of + 0.5% and -0.5% in market interest rates (AUD) from year-end rates of 2.5%

These movements will not have a material impact on the valuation of Council's financial assets and liabilities, nor will they have a material impact on the results of Council's operations.

8.4 Fair value measurement

Fair value hierarchy

Council's financial assets and liabilities are not valued in accordance with the fair value hierarchy Council's financial assets and liabilities are measured at amortised cost

Council measures certain assets and liabilities at fair value where required or permitted by Australian Accounting Standards. AASB 13 Fair value measurement, aims to improve consistency and reduce complexity by providing a definition of fair value and a single source of fair value measurement and disclosure requirements for use across Australian Accounting Standards.

AASB 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value under AASB 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within a fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, Council has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

In addition, Council determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

148 GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19

Revaluation

Subsequent to the initial recognition of assets, non-current physical assets, other than plant and equipment, are measured at their fair value, being the price that would be received to sell an asset (or paid to transfer a liability) in an orderly transaction between market participants at the measurement date. At balance date, the Council reviewed the carrying value of the individual classes of assets measured at fair value to ensure that each asset materially approximated its fair value. Where the carrying value materially differed from the fair value at balance date, the class of asset was revalued.

Fair value valuations are determined in accordance with a valuation hierarchy. Changes to the valuation hierarchy will only occur if an external change in the restrictions or limitations of use of an asset result in changes to the permissible or practical highest and best use of the asset. In addition, Council undertakes a formal revaluation of land, buildings, and infrastructure assets on a regular basis ranging from 4 to 5 years. The valuation is performed either by experienced council officers or independent experts.

Where the assets are revalued, the revaluation increments are credited directly to the asset revaluation reserve except to the extent that an increment reverses a prior year decrement for that class of asset that had been recognised as an expense in which case the increment is recognised as revenue up to the amount of the expense. Revaluation decrements are recognised as an expense except where prior increments are included in the asset revaluation reserve for that class of asset in which case the decrement is taken to the reserve to the extent of the remaining increments. Within the same class of assets, revaluation increments and decrements within the year are offset.

Impairment of assets

At each reporting date, the Council reviews the carrying value of its assets to determine whether there is any indication that these assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, is compared to the assets carrying value. Any excess of the assets carrying value over its recoverable amount is expensed to the comprehensive income statement, unless the asset is carried at the revalued amount in which case, the impairment loss is recognised directly against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same class of asset.

8.5 Events occurring after balance date

No matters have occurred after balance date that require disclosure in the financial report.

152 | GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19

9.3 Superannuation

Council makes the majority of its employer superannuation contributions in respect of its employees to the Local Authorities Superannuation Fund Vision Super. This Fund has two categories of membership, accumulation and defined benefit, each of which is funded differently. Obligations for contributions to the Fund are recognised as an expense in the Comprehensive Income Statement when they are made or due.

Accumulation

The Fund's accumulation categories, Vision MySuper/Vision Super Saver, receive both employer and employee contributions on a progressive basis. Employer contributions are normally based on a fixed percentage of employee earnings (for the year ended 30 June 2019, this was 9.5% as required under Superannuation Guarantee legislation).

Defined Benefit

Council does not use defined benefit accounting for its defined benefit obligations under the Fund's Defined Benefit category. This is because the Fund's Defined Benefit category is a pooled multi-employer sponsored plan.

There is no proportional split of the defined benefit liabilities, assets or costs between the participating employers as the defined benefit obligation is a floating obligation between the participating employers and the only time that the aggregate obligation is allocated to specific employers is when a call is made. As a result, the level of participation of Council in the Fund cannot be measured as a percentage compared with other participating employers. Therefore, the Fund Actuary is unable to allocate benefit liabilities, assets and costs between employers for the purposes of AASB 119.

Funding arrangements

Council makes employer contributions to the Defined Benefit category of the Fund at rates determined by the Trustee on the advice of the Fund Actuary.

As at 30 June 2018, a full triennial actuarial investigation was completed. The vested benefit index (VBI) of the Defined Benefit category of which Council is a contributing employer was 106.0%. To determine the VBI, the Fund Actuary used the following long-term assumptions:

Net investment returns 6.5% pa Salary information 3.5% pa Price inflation (CPI) 2.5% pa.

Vision Super has advised that the estimated VBI at 30 June 2019 was 107.1%.

The VBI is to be used as the primary funding indicator. Because the VBI was above 100%, the 30 June 2018 actuarial investigation determined the Defined Benefit category was in a satisfactory financial position and that no change was necessary to the Defined Benefit category's funding arrangements from prior years.

Employer contributions

Regular contributions

On the basis of the results of the 2018 triennial actuarial investigation conducted by the Fund Actuary, Council makes employer contributions to the Fund's Defined Benefit category at rates determined by the Fund's Trustee. For the year ended 30 June 2019, this rate was 9.5% of members' salaries (9.5% in 2017/2018). This rate will increase in line with any increases in the SG contribution rate. In addition, Council reimburses the Fund to cover the excess of the benefits paid as a consequence of retrenchment above the funded resignation or retirement benefit.

GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19 | 153

Notes to the Financial Report For the Year Ended 30 June 2019

Funding calls

If the Defined Benefit category is in an unsatisfactory financial position at an actuarial investigation or the Defined Benefit category's VBI is below its shortfall limit at any time other than the date of the actuarial investigation, the Defined Benefit category has a shortfall for the purposes of SPS 160 and the Fund is required to put a plan in place so that the shortfall is fully funded within three years of the shortfall occurring. The Fund monitors its VBI on a quarterly basis and the Fund has set its shortfall limit at 97%.

In the event that the Fund Actuary determines that there is a shortfall based on the above requirement, the Fund's participating employers (including Council) are required to make an employer contribution to cover the shortfall. Using the agreed methodology, the shortfall amount is apportioned between the participating employers based on the pre-1 July 1993 and post-30 June 1993 service liabilities of the Fund's Defined Benefit category, together with the employer's payroll at 30 June 1993 and at the date the shortfall has been calculated.

Due to the nature of the contractual obligations between the participating employers and the Fund, and that the Fund includes lifetime pensioners and their reversionary beneficiaries, it is unlikely that the Fund will be wound up. If there is a surplus in the Fund, the surplus cannot be returned to the participating employers. In the event that a participating employer is wound-up, the defined benefit obligations of that employer will be transferred to that employer's successor.

2018 triennial actuarial investigation surplus amounts

An actuarial investigation is conducted annually for the Defined Benefit category of which Golden Plains Shire Council is a contributing employer. Generally, a full actuarial investigation conducted every three years and interim actuarial investigations are conducted for each intervening year. An interim investigation was conducted as at 30 June 2018 and a full actuarial investigation was conducted as at 30 June 2017.

The Fund's actuarial investigations identified the following for the Defined Benefit category of which Golden Plains Shire Council is a contributing employer:

	2,018	2,017
	\$'000	\$'000
A VBI surplus	131,900	69,800
A total service liability surplus	218,300	193,500
A discounted accrued benefits surplus	249,100	228,800

The VBI surplus means that the market value of the fund's assets supporting the defined benefit obligations exceed the vested benefits that the defined benefit members would have been entitled to if they had all exited on 30 June 2018.

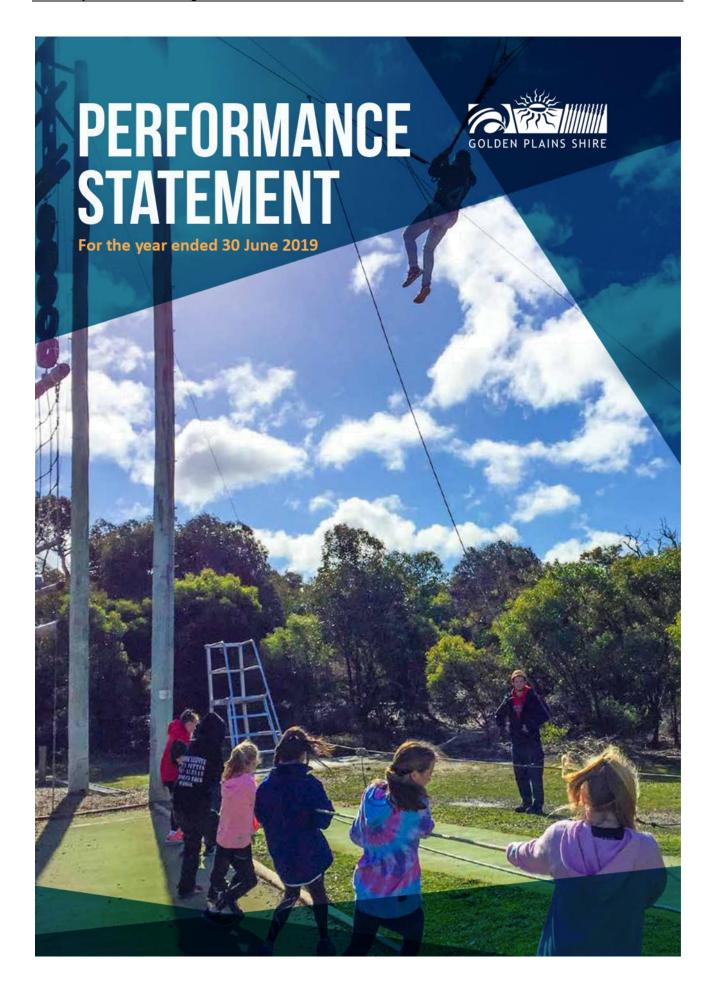

The total service liability surplus means that the current value of the assets in the Fund's Defined Benefit category plus expected future contributions exceeds the value of expected future benefits and expenses.

The discounted accrued benefit surplus means that the current value of the assets in the Fund's Defined Benefit category exceeds the value of benefits payable in the future but accrued in respect of service to the investigation date. Council was notified of the 30 June 2018 VBI during August 2018.

2019 interim actuarial investigation

An interim actuarial investigation is being conducted for the Fund's position as at 30 June 2019 as the Fund provides lifetime pensions in the Defined Benefit category. It is anticipated that this actuarial investigation will be completed by October 2019.

154 GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19

Certification of the Performance Statement

In my opinion, the accompanying Performance Statement has been prepared in accordance with the *Local Government Act 1989* and the Local Government (Planning and Reporting) Regulations 2014.

Dated: 18 September 2019

In our opinion, the accompanying Performance Statement of the Golden Plains Shire Council for the year ended 30 June 2019 presents fairly the results of Council's performance in accordance with the *Local Government Act 1989* and the Local Government (Planning and Reporting) Regulations 2014.

The Performance Statement contains the relevant performance indicators, measures and results in relation to service performance, financial performance and sustainable capacity.

At the date of signing, we are not aware of any circumstances that would render any particulars in the Performance Statement to be misleading or inaccurate.

We have been authorised by the Council and by the Local Government (Planning and Reporting) Regulations 2014 to certify this Performance Statement in its final form.

Chief Executive Officer
Dated: 18 September 2019

156 GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19

Independent Auditor's Report

To the Councillors of Golden Plains Shire Council

Opinion

I have audited the accompanying performance statement of Golden Plains Shire Council (the council) which comprises the:

- description of municipality for the year ended 30 June 2019
- sustainable capacity indicators for the year ended 30 June 2019
- service performance indicators for the year ended 30 June 2019
- financial performance indicators for the year ended 30 June 2019
- other information for the year ended 30 June 2019 (basis of preparation)
- certification of the performance statement.

In my opinion, the performance statement presents fairly, in all material respects, the performance of the council for the year ended 30 June 2019, in accordance with the performance reporting requirements of Part 6 of the Local Government Act 1989.

Basis for Opinion

I have conducted my audit in accordance with the *Audit Act 1994* which incorporates the Australian Standards on Assurance Engagements. I further describe my responsibilities under that Act and those standards in the *Auditor's Responsibilities for the Audit of the Performance Statement* section of my report.

My independence is established by the *Constitution Act 1975*. My staff and I are independent of the council in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the performance statement in Victoria. My staff and I have also fulfilled our other ethical responsibilities in accordance with the Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Councillors' responsibilities for the performance statement

The Councillors of the council are responsible for the preparation and fair presentation of the performance statement in accordance with the performance reporting requirements of the *Local Government Act 1989*, and for such internal control as the Councillors determine is necessary to enable the preparation and fair presentation of the statement of performance that is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the audit of the performance statement As required by the *Audit Act 1994*, my responsibility is to express an opinion on the performance statement based on the audit. My objectives for the audit are to obtain reasonable assurance about whether the performance statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Standards on Assurance

Level 31 / 35 Collins Street, Melbourne Vic 3000

GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19 | 157

Independent Auditor's Report

To the Councillors of Golden Plains Shire Council

Engagements will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users taken on the basis of this performance statement.

As part of an audit in accordance with the Australian Standards on Assurance Engagements, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the
 performance statement, whether due to fraud or error, design and
 perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for my
 opinion. The risk of not detecting a material misstatement resulting
 from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or
 the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the council's internal control
- evaluate the overall presentation, structure and content of the
 performance statement, including the disclosures, and whether the
 performance statement represents the underlying events and results in
 a manner that achieves fair presentation.

I communicate with the Councillors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

MELBOURNE 23 September 2019

Jonathan Kyvelidi as delegate for the Auditor-General of Victoria

158 | GOLDEN PLAINS SHIRE COUNCIL ANNUAL REPORT 2018-19

We encourage you to visit Golden Plains and taste, see and explore all it has to offer. Who knows? Perhaps you'll decide to stay.

Description of municipality

Golden Plains is the place to enjoy life as it should be.

In recent years, the region has experienced significant population growth as people discover the benefits of living in a semi-rural setting with plenty of space to breathe.

With 23,120 residents across 56 communities and 16 townships, Golden Plains Shire has been one of the fastest growing municipalities in Victoria, with population growth now around 2.4% per annum.

New residents, including many young families, continue to enjoy a diverse range of lifestyle choices available in the Shire's welcoming communities.

Golden Plains Shire comprises 2,704 square kilometres between Victoria's two largest regional cities, Geelong and Ballarat. The Shire's close proximity to services available in neighbouring cities and convenient commuting distance to Melbourne and the SurfCoast adds to its appeal as a place to call home.

Business growth continues to create attractive investment opportunities and new jobs. While the Shire has a strong tradition of wool and grain production, intensive animal farming, particularly poultry and pigs, is increasing.

Golden Plains Shire is conveniently located close to export markets and welcomes investment and sustainable development. Strong population and economic growth render the region an attractive place to invest.

As a popular destination for family fun, food and wine connoisseurs and for those seeking adventure in the great outdoors, Golden Plains Shire also has it all for the perfect day trip experience.

This thriving municipality has become renowned across Australia, and internationally, for the produce on offer at local eateries, cellar doors and the monthly Golden Plains Farmers' Market in Bannockburn.

The Golden Plains region has become known for its many gourmet food producers and the Moorabool Valley in the Shire's east is home to a well established award winning wine industry. The newly created Moorabool Valley Taste Trail includes wineries, cellar doors and provedores.

Despite strong growth in the north west and south east, the Shire continues to be offer beautiful natural environments and landscapes. The natural beauty of the region remains visible and accessible as does remnant townships and structures from the area's rich gold mining history.

The region has a vibrant arts and culture scene including iconic music festivals which are all helping to make Golden Plains an emerging tourism destination.

Other Information

Basis of preparation

Council is required to prepare and include a Performance Statement within its annual report. The Performance Statement includes the results of the prescribed sustainable capacity, service performance and financial performance indicators and measures together with a description of the municipal district and an explanation of material variations in the results. This statement has been prepared to meet the requirements of the Local Government Act 1989 and Local Government (Planning and Reporting) Regulations 2014.

Where applicable the results in the Performance Statement have been prepared on accounting bases consistent with those reported in the Financial Statements. The other results are based on information drawn from Council information systems or from third parties (e.g. Australian Bureau of Statistics).

The Performance Statement presents the actual results for the current year and for the prescribed financial performance indicators and measures, the results forecast by the Council's strategic resource plan. The Local Government (Planning and Reporting) Regulations 2014 requires explanation of any material variations in the results contained in the Performance Statement. Council has adopted materiality thresholds relevant

to each indicator and measure and explanations have not been provided for variations below the materiality thresholds unless the variance is considered to be material because of its nature.

The forecast figures included in the Performance Statement are those adopted by Council in its strategic resource plan on 25 June 2019 and which forms part of the Council Plan. The strategic resource plan includes estimates based on key assumptions about the future that were relevant at the time of adoption and aimed at achieving sustainability over the long term. Detailed information on the actual financial results is contained in the General Purpose Financial Statements. The strategic resource plan can be obtained by contacting Council.
