Subject: SRQ0123902 - FW: Road Naming Enquiry

Good morning Emily

Thank you for arranging the site inspection.

Reviewing the images, it appears that Easton Road is obstructed permanently near to the access of the property in question, therefore we would be supportive of assigning a unique name to the unnamed portion of road from Clarkes Road to the access point of 112 Clarkes Road.

To assign a name to this portion of road, please follow the process as indicated under the *Naming rules for places in Victoria 2016*. Please note a compliant road type must be assigned in this case, as it is a no-through road, a culs-de-sac road type **MUST** be assigned, refer to Appendix A in the Naming rules.

When we receive the proposal and add the new name to Vicmap Transport, we will also be able to add an indicator in Vicmap to show an obstruction at the point where Easton Road ends near to 112 Clarks Road.

Furthermore, Council should ensure adequate road signs are in place to direct traffic etc, for example "No through road" at the entrance point of the new unique road name to be assigned.

We hope this provides a way forward.

Subject: SRQ0171569 - Assistance with Road Naming Request

Emily,

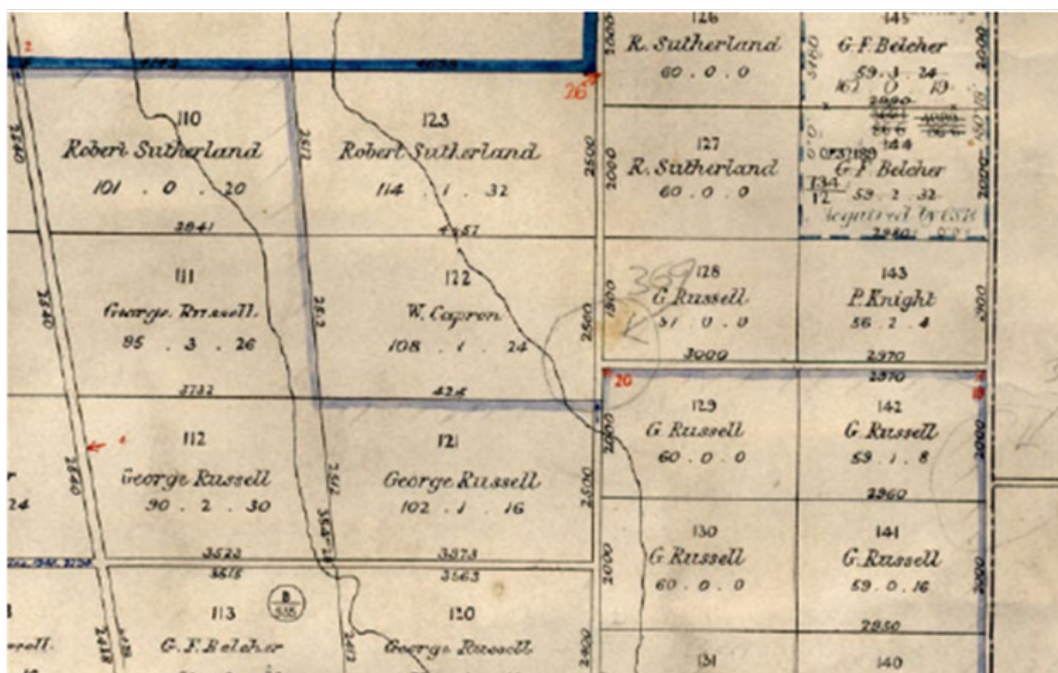

Thanks for your patience.

Title drawings did not turn up anything of interest.

When we looked at the Parish plan, we found the name, along with many other land owners.

So the link to place is to a landowner - you could provide a copy of the Parish as proof to support your application

There should be a picture displayed below:

Kind regards

Rafe
