ABOUT THE COUNCIL PLAN 2021-2025

The Council Plan 2021-2025 is Council's commitment to delivering on the dreams and aspirations outlined in the Golden Plains Shire Community Vision 2040.

The *Local Government Act 2020* requires that a Council Plan be prepared and adopted by 31 October in the year following a general election and that Council must address the strategic planning principles outlined in the Act in the preparation of its Council Plan and other strategic plans. The Plan plays a key role in setting the strategic direction of Council for the Council term and ensuring an integrated approach is taken to planning, monitoring and performance reporting (outlined in the Corporate Planning Framework as provided below).

The Council Plan has been informed by extensive community engagement and expands on the four Themes of the Community Vision- Community, Liveability, Sustainability and Prosperity with the inclusion of an additional theme in Leadership. The Themes and Community Priorities provide the framework for Golden Plains Shire to align its strategic objectives and actions to for the next four years.

In addition, the Council Plan 2021-2025 incorporates the Municipal Public Health and Wellbeing Plan (MPHWP) as required under the *Public Health and Wellbeing Act 2008*. This ensures the priorities for supporting, protecting and improving the health and wellbeing of the Golden Plains Shire community are at the forefront of Council's strategic planning and are integrated across all Council services and initiatives.

OUR SHIRE

Golden Plains Shire is situated between two of Victoria's largest regional cities, Geelong and Ballarat, with a population of 24,249 people across 56 vibrant rural communities.

Renowned for its award-winning food and wine, iconic music festivals, goldfield heritage and friendly communities, Golden Plains Shire is an attractive destination both to visit and to call home.

New residents, particularly young families, are attracted to the area's rural lifestyle, affordable housing and proximity to the services and jobs available in the Shire, as well as those in Melbourne, Geelong, Ballarat and the Surf Coast.

Residents value the character of Golden Plains' small townships and communities, local facilities and services, and natural environment.

As one of the fastest growing regions in rural Victoria, boasting rich biodiversity and a broad range of flora and fauna, Golden Plains Shire has much to offer.

Golden Plains also offers many opportunities for businesses, investment, sustainable

development and employment, with more than 1,982 businesses including farming, construction, retail and home-based businesses.

The Shire has a strong agricultural sector, with a history of wool, sheep and grain production. Now-a-days the Shire is seeing strong growth in intensive agriculture, including poultry, pigs, beef and goat dairy, as well as the expansion of viticulture in the Moorabool Valley. This in turn has driven an increase in the regions tourism offering, with visitors attracted to the region's picturesque wineries, gourmet food producers, agri-tourism and the monthly Golden Plains Farmers' Market.

Golden Plains Shire is one of the leading producers of eggs and chicken meat in Victoria, producing nearly a quarter of Victoria's eggs. Council is encouraging continued growth and investment in intensive agriculture, by establishing the Golden Plains Food Production

Precinct, near Lethbridge, which is on track to become one of Victoria's premier areas for intensive agriculture development and expansion.

Council is recognised for engaging with its communities to build community spirit and plan for growth and future facilities and services. Residents continue to support their townships, with high levels of participation in clubs, activities and volunteering.

Looking to the future, Golden Plains Shire residents have shared their vision and priorities for the next 20 years through the Community Vision process. They identified the need to plan and manage the competing interests of a growing population whilst maintaining the Shire's highly valued rural character, meet community service and infrastructure needs, and maintain and improve the Shire's extensive road network.

COUNCIL'S VISION

A healthy, safe, vibrant, prosperous and sustainable community supported by strong leadership, transparent governance and community partnerships.

OUR COMMUNITY • OUR ECONOMY • OUR PRIDE

COUNCIL'S MISSION

We will achieve our vision through:

Demonstrating good governance and involving the community in decision-making.

Working and advocating in partnership with our community to address social, economic and environmental challenges.

Promoting gender equality and equity and inclusion for all.

Sustaining a focus on long-term outcomes and delivering increased public value through good decision-making and strategic spending.

Building awareness and strategic alliances with government, regional groups and the community.

COUNCIL'S VALUES

Honesty and Integrity

We will act ethically and honestly and work to continue to build the trust and confidence of the community.

Leadership

We will demonstrate strong and collaborative community leadership.

Accountability

We will act in an open and transparent manner and be accountable to our community for our processes, decisions and actions.

Adaptability

We will implement progressive and creative responses to emerging issues and will continue to work to build organisational and community resilience.

Fairness

We will base our decision-making on research, information and understanding of the needs and aspirations of the whole community and promote equitable access to the Shire's services and public places.

FROM THE MAYOR

As the Mayor of Golden Plains and on behalf of the Shire's Councillors, I am proud to present the Golden Plains Shire Council Plan 2021-2025.

It is my honour to be serving my fourth term as a Councillor and each term has been defined by its Council Plan – the engagement, the commitment and the delivery of the promises we have made to our residents that are at the core of why we choose to serve in local government.

Every four years, our Councillor group of long-serving and new representatives come together with a mandate from our community to guide the organisation and the services of local government in the right direction. Built on the views and ideas of community members through an extensive engagement process, we are united in our goal to shape a quality four-year strategic plan for Council and the community.

Developing the Council Plan for 2021-2025 was a unique experience, as for the first time it was directly guided by the over-arching Golden Plains Community Vision 2040. Led by a community reference group, the Vision was built by the people, for the people and the result is a truly impressive vision for Golden Plains Shire over the next 20 years.

Respecting this Vision, the goal of the Council Plan 2021-2025 is to identify and refine the priorities of Council for the next four years. With a clear strategic direction for Golden Plains Shire, Council is also best placed to advocate for greater Federal and State Government investment in health, education,

public transport and infrastructure for our local residents.

The Plan's principal themes of Community, Liveability, Sustainability and Prosperity are the very same themes of the Vision, with the addition of the theme of Leadership. The marriage of these two key strategic documents ensures that our Council is moving forward in the direction that our community wants the Shire to head and the Council Plan 2021-2025 details the first important steps on this journey, under the umbrella of the Vision.

Through the development of the Community Vision 2040 and the creation of the Council Plan 2021-2025, we have a more detailed understanding and a great appreciation for the many and varied challenges and opportunities that face our Shire now and in the coming years. We know we are large Shire with a limited revenue base; that we have a long list of assets to maintain while also wanting to build new community infrastructure for our communities. Living through the COVID-19 pandemic experience, we are keenly aware of the importance of local government in everyday life, as we play a key role in strengthening and celebrating our communities and delivering valued, personal services to Golden Plains' people of all ages.

We also see great opportunity in our Shire, with significant population growth inspiring investment and economic development. Our advocacy

for Golden Plains has attracted increased government support and we have capitalised on unique COVID-19 recovery funding programs to deliver valuable infrastructure our community wants and needs.

The Council Plan 2021-2025, incorporating the Municipal Public Health and Wellbeing Plan 2021-2025, takes this knowledge of who we are and where we are and delivers on the goals of the community and the Council for the next four years.

Together as a Councillor group and Council organisation, we sought to craft a Council Plan that is aspirational and achievable; fair and balanced; progressive and innovative. We want a plan that respects who we are as a Shire, and also maps out a clear, confident direction for who we can become. We want the people of Golden Plains to see their ideas and views in this plan and also to understand the commitment of Council for the next four years.

As a Council, we are pleased to have met all these objectives with the creation of this Council Plan 2021-2025. Over the next four years, Council is excited to deliver on this plan and its commitments. We thank the community for their engagement and support, and we look forward to partnering with the people and communities of Golden Plains Shire to make these ideals and aspirations a reality.

Mayor Cr Helena Kirby

YOUR COUNCILLORS

**CR IAN
GETSOM**

Cr Ian Getsom is a long-term Piggoreet resident, living on a rural property farmed by his sons. He has volunteered for almost 40 years with the CFA and is the President of the Happy Valley community hall. With a career in transport, he worked as a train controller during his 15 years on Victorian railways and now drives school and charter bus runs in the north of the Shire.

Cr Getsom prides himself on being an approachable Councillor and looks forward to building strong working relationships with the Council staff. He is passionate about boosting services across the many townships of the Shire and improving the vitality of its villages.

Cr Getsom is a Community Services Portfolio Councillor and is Deputy Mayor for 2020-21. He is also Council's representative on Timber Towns, Ballarat Regional Landfill Monitoring Committee and the G21 Transport Pillar.

**CR OWEN
SHARKEY**

Cr Owen Sharkey is a resident of Batesford who brings career experience from the construction and housing industry to his role in Council. Elected to serve his second term as a Councillor, Cr Sharkey was Mayor of Golden Plains Shire in 2018-19 and 2019-20.

Cr Sharkey is dedicated to supporting local youth, cultural diversity and business development, with a focus on recovery from the COVID-19 pandemic. His priorities for Council include maintaining strong regional partnerships, highlighting the challenges for peri urban municipalities and advocating for an improved rating structure.

Cr Sharkey is a Community Services Portfolio Councillor and Council's representative on to the Municipal Association of Victoria and its Human Service Committee, as well as the Geelong Regional Library Corporation Board.

**CR LES
ROWE**

Cr Les Rowe is a life-long resident of Sutherlands Creek, where he and his family farm properties in the Moorabool Valley, near the land his ancestors settled more than 160 years ago.

Cr Rowe is a strong advocate for the local agricultural industry and rural communities. Serving his second term as a Councillor, he is dedicated to improving the local road and bridge network, community consultation, supporting local businesses and job creation, and Council delivering on the Community Vision 2040.

Cr Rowe is a Corporate Services Portfolio Councillor and Council's representative on the Geelong Heritage Centre Collection Advisory Committee, Golden Plains Municipal Fire Management Planning Committee and the G21 Education & Training and Arts, Heritage & Culture Pillars.

MAYOR CR HELENA KIRBY

Mayor Cr Helena Kirby has lived in Rokewood for 30 years and with her family, she owns and operates the Rokewood Take Away store. Serving her fourth consecutive term as a Councillor, she was elected Mayor for 2020-21, a role she previously held in 2017-18.

Cr Kirby is passionate about ensuring equity of services in the Shire's small towns, community consultation and engagement, and community planning. During the Council term, she is focused on economic development, activating community spaces including local halls and playgrounds, and protecting the rural lifestyle of Golden Plains Shire.

In her role as Mayor, Cr Kirby serves on the Audit & Risk Committee, G21 Board of Directors, Central Highlands Councils Victoria and the Berrybank Wind Farm Community Engagement Committee. Cr Kirby is also Council's representative on the Peri Urban Group of Rural Councils, Golden Plains Disability Access & Inclusion Committee and Rural Financial Counselling Service – Colac Local Reference Group.

COMMUNITY VISION 2040

The Golden Plains Shire Community Vision 2040 is a plan that captures the hopes and aspirations of the whole community, and ensures we are planning a bright future for all.

The Community Vision outlines how the entire Golden Plains community can work together towards common goals and meet the Shire's needs, both now and into the future.

A key component of developing a Community Vision for the first time in Golden Plains was engaging broadly, to capture and represent the diverse hopes and aspirations of all Golden Plains residents and stakeholders. Following an open Expression of Interest process, a dedicated Community Reference Group was formed in October 2019 and the group undertook engagement training and co-design workshops to lead and guide the Vision 2040 project.

Community engagement to promote and capture input for the Vision from across the Shire was undertaken during February and March 2020 and promoted via print, online and social media. Engagement activities included attendance at events, community conversation posts, postcards, online surveying, newsletters and a dedicated student session at Bannockburn P-12 College.

A total of 534 responses, representing more than 2.3% of the Shire population, were gathered from across a range of age groups, demographics and locations. To represent and refine the engagement information, the Community Reference Group workshopped and analysed the data into a series of Themes, Community Priorities and Vision Statements to form a Concept for the Vision that could be further tested with community and stakeholders in June 2020.

Following additional feedback and a further 33 written responses, refinement of the Concept was completed by the Community Reference Group to form the Draft Community Vision document that was presented to Council in August 2020.

The final stage of engagement involved the Draft Vision being publicised and made available for public viewing and submission from August to November 2020. Minor updates and changes were considered and provided for the final version Golden Plains Shire Community Vision 2040 which was presented to and adopted by Golden Plains Shire Council on 15 December 2020.

The Council Plan is Council's response to addressing the high-level and long-term hopes and aspirations outlined in the Golden Plains Community Vision 2040 for the period 2021-2025. The Themes, Community Priorities and Vision Statements of the Community Vision 2040 have provided the strategic framework for the Council Plan 2021-2025 and ensure that Council's priorities, actions and initiatives are aligned to the Vision of the Shire community.

This is consistent with Section 89 of the *Local Government Act 2020* which requires that the preparation of the Council Plan (and other strategic plans) must address the Community Vision.

THE ENGAGEMENT PROCESS

Council conducted an extensive and deliberative engagement process to inform and develop the Council Plan 2021-2025 and Municipal Public Health and Wellbeing Plan in accordance with Council's Community Engagement Policy.

WHAT WE DID

Following on from the Golden Plains Shire Community Vision 2040 process, further engagement to determine priorities and deliverables under the themes of the Community Vision 2040 and Municipal Public Health and Wellbeing Plan was undertaken.

Council conducted an online survey on the Have Your Say page on Council's website to seek input from the community on the key priorities for the Council Plan 2021-2025. The online survey consisted of free-text and targeted answers to align with the Community Vision 2040 themes. Health and Wellbeing was further explored with survey participants ranking the 10 Victorian Public Health and Wellbeing Plan priorities in terms of importance for Golden Plains Shire and also providing free text Health and Wellbeing responses.

Council developed and distributed postcards that reflected the Community Vision 2040 themes in alignment with the online survey

to provide the opportunity for written input. The postcards were widely distributed at a number of community engagement listening posts across the Shire and were made available at Council's Customer Centres in Bannockburn and Smythesdale.

The Council Plan engagement was extensively advertised on Council's website, via social media channels and through print media, including the Golden Plains Times.

A feature on the Council Plan engagement was provided in the Golden Plains Shire Gazette that is delivered to all residents across the municipality. This included a hard copy survey for readers to complete and return to Council. It also provided the website address to link residents to the online survey and information.

The Mayor, Councillors, and Council Staff attended a number of community events, including Community Conversation Posts at:

- Rokewood Township and Dereel Multi Town Garage Sale

- Golden Plains Farmers' Market in Bannockburn
- Smythesdale Arts & Music Fiesta
- Online Councillor Workshop
- The Skate, Scoot and BMX clinic/competition in Bannockburn, with more than 200 young people and their family members in attendance.

To further seek input across the various geographic locations, Coffee with your Councillors sessions based around the Council Plan were conducted at nine separate venues across the Shire, providing direct face-to-face interaction with Councillors. These were at Haddon, Cape Clear, Lethbridge, Ross Creek, Napoleons, Teesdale, Linton, Meredith and Inverleigh.

A total of 219 responses were received from the community on the Council Plan 2021-2025, which included 158 online responses, 52 postcard responses, 4 Gazette responses, 4 email and 1 letter response.

OUR COMMITMENT TO IMPROVING COMMUNITY HEALTH AND WELLBEING

This Council Plan integrates Council's Municipal Public Health and Wellbeing Plan and details our commitment to work in a collaborative and coordinated way to create supportive, inclusive and empowering environments that enable all of community to achieve optimal health and wellbeing outcomes.

Health and wellbeing is driven by a complex interaction of individual characteristics, lifestyle and the physical, social and economic environment. There is a range of wider determinants on health and wellbeing including income, early childhood experiences, gender stereotypes, norms and expectations, education, employment, social inclusion, housing and geography, living and working conditions, quality of air, soil and water and health systems.

The Victorian Public Health and Wellbeing Plan 2019-2023

The plan embeds an integrated responsibility across all areas of Council to reflect the view that 'health and wellbeing is everyone's responsibility'.

Council's health and wellbeing priorities, outcomes and strategies have been developed with regard to the Victorian Public Health and Wellbeing Plan 2019-2023. The Plan sets the direction and provides a framework for coordinated action, ensuring Victorians of all ages are afforded the opportunity for optimal health and wellbeing so they can participate fully in their community.

The state priorities identified for 2019-2023 are:

- Improving mental wellbeing
- Increasing active living
- Preventing all forms of violence
- Increasing healthy eating
- Tackling climate change and its impact on health

- Reducing injury
- Improving sexual and reproductive health
- Reducing harmful alcohol and drug use
- Reducing tobacco-related harm
- Decreasing the risk of drug resistant infections in the community

Golden Plains Shire Council actively participates in regional approaches to strengthen collective health and wellbeing action, contributing to both the Central Highlands Primary Care Partnership (CHPCP) and G21 Regional Alliance. Both CHPCP and G21 identify 'healthier eating and active living' as the health and wellbeing priority for regional action moving forward.

Acknowledging the broader Victorian and regional context for community health and wellbeing planning, the Golden Plains Shire

Council priorities for supporting and improving the health and wellbeing of our community are informed by extensive community consultation, consultation with regional partners and key stakeholder engagement.

Twenty-seven key stakeholders from community health organisations, regional networks, preventative health service providers, regional sporting associations, family violence support services the education and disability sector within Council contributed to data collection. These stakeholders provided information on current and emerging community health needs, highlighted existing challenges in the delivery of community health initiatives, and identified a range of actions to address these current needs and challenges. Their responses helped inform Council's health and wellbeing priorities and strategies, with further engagement planned to develop Council's Action Plan and monitoring and evaluation framework.

In addition, a comprehensive 'Community Health and Wellbeing Profile' provided by the CHPCP, and examination of other local health and wellbeing data provides an evidence base around current trends and issues, helping to identify priority areas for action.

Requirements of the *Public Health and Wellbeing Act 2008* specify inclusion of measures to prevent family violence and respond to the needs of victims of family violence in the local community and under the *Climate Change Act 2017*. Councils are required to have regard to climate change when preparing a municipal public health and wellbeing plan. To determine the health needs of the Shire, an examination of health status and the determinants of health at a local level was completed. We recognise that health status varies markedly across the population and acknowledge that social and economic factors significantly contribute to health inequities, and consequently impact the ability of an individual to achieve optimal health.

The following pages provide an overview of the determinants of health and the health status of Golden Plains Shire, helping to identify the current and emerging health needs of our community, and guide our public health work.

We are committed to working collaboratively with our community, the Department of Health, and health and wellbeing partners to address the broader social determinants of health, respond to diverse community needs and tackle the attitudes, systems and structures that reinforce health inequities. We will specifically work in collaboration with our community to co-design,

implement, monitor and evaluate our health and wellbeing actions, to ensure they are relevant, appropriate and responsive to emerging and changing community health needs.

We support the notion that 'health and wellbeing improvements cannot be ensured by the health sector alone' and this is reflected in our approach to integrating health and wellbeing matters across all areas of Council activity, and driving collective and coordinated action across sectors to achieve shared health and wellbeing outcomes.

The approaches we will take to improving health and wellbeing outcomes for all residents include:

- **Placed based and local solutions**

Recognising how the places where people live, learn, work and play have an important role in shaping health and wellbeing. Developing and delivering local solutions to local problems.

- **Sustainable progress**

Embedding capacity building and empowerment into all health and wellbeing actions to ensure long-term benefits can be sustained.

- **Increasing access**

Facilitating increased and equitable access to local health and community services to meet the current and future needs of our community.

Golden Plains Shire Council is uniquely positioned to support a more collaborative and integrated approach to preventative health planning, implementation and evaluation through Integrated Health Promotion funding from the Department of Health. This funding aids in supporting and delivering community health initiatives that reduce health inequities across the Shire.

A detailed action plan will be developed outlining specific actions that Golden Plains Shire Council and our key partners will collaborate on, to achieve our identified health and wellbeing priorities. Ongoing governance and monitoring will be conducted annually to review, modify and evaluate effectiveness and measure the success and impact of our work. This will ensure that we take a holistic approach to health and wellbeing matters and are proactive in addressing emerging community health needs with place-based and people-centered initiatives.

HEALTH STATUS

Health status refers to the overall level of health of an individual, group or population based on measures including life expectancy, amount of disability/ill health and levels of disease risk factors. Health status is measured through a number of indicators including life expectancy, morbidity, mortality, burden of disease and rates of chronic disease.

The table below includes data relating to health status indicators for Golden Plains Shire and makes a comparison to Victorian health status levels.

HEALTH DETERMINANTS

The determinants of health are the circumstances, factors and conditions in which people are born, live, work and age.

These conditions are often external factors that influence an individual's ability to maintain optimal health and are often out of the direct control of the individual. Determinants of health can be categorised into the social, cultural and economic environment, the physical environment, and individual lifestyle characteristics and behaviours.

Health inequities are the differences in health status or the distribution of health resources between different

population groups, that arise from the social and environmental conditions in which people live, work and grow. Three key health inequities for Golden Plains Shire residents are:

1. Access to community health services (including general practice allied health, mental health support and prevention and response services)
2. Access to public transport (within the Shire and to/from Geelong and Ballarat)

3. Access to social support (rural and remote communities experience greater rates of social isolation and consequent negative impacts on mental health)

The impact of health inequities on the health status of Golden Plains Shire residents is shown in the health status table on the previous page.

The social determinants of health are considered the most important factors which determine optimal or ill health and can significantly strengthen or undermine the health of individuals and communities.

Key social determinants of health include:

Socioeconomic position is defined by indicators including education attainment, occupation and income. In general, the higher the socioeconomic position the greater the chance of positive health outcomes, and the lower the socioeconomic position the greater the risk of poorer health outcomes including ill health, disability and lower life expectancy. Education attainment, stable occupation and secure income allow an individual to have greater access to and choice of goods and services that support health and wellbeing.

Early life including perinatal, early childhood development, physical development and emotional support are important in establishing healthy social, emotional, cognitive and physical wellbeing in children, and set them up for greater health outcomes later in life. Investment in early childhood development can reduce the risk of children experiencing health inequities, and can provide greater opportunities for learning, building social connections and meaningfully participating in their community.

Social capital is defined by an individual's social support networks, social connectedness and meaningful participation in the community. Increased social capital is associated with positive health outcomes including positive physical and mental wellbeing, whilst decreased social capital is associated with poorer health outcomes including social exclusion, isolation and loneliness.

Employment People who are unemployed are at a greater risk of poorer health outcomes including illness, disability and psychological stress, whilst people who are employed generally have a more positive sense of identity, higher self-esteem and greater opportunities for social interaction and personal development which lead to more positive health outcomes.

Housing Access to safe, affordable and secure housing is associated with better health outcomes, and increases an individual's ability to participate in work, education and community life. Poor housing conditions can increase stress, social isolation and risk of disease or injury, whilst secure and affordable housing can increase an individual's sense of stability and control.

Residential environment Individuals who live in communities that offer access to a wide range of goods, services and built and natural environments that support healthy lifestyles are more likely to experience positive health outcomes. Environments that provide appropriate housing, transport, infrastructure and opportunities for social interaction promote positive physical, mental and emotional wellbeing and support the development of healthy behaviours.

An examination of health determinants data is included under each Council Plan theme in the 'Data and Context' section highlighting the integration of health determinants into the Council Plan.

HEALTH AND WELLBEING PRIORITIES

We are committed to the following health and wellbeing priorities that underpin the Council Plan and strategic direction for the next four years and beyond.

These priorities were developed through an examination of health status and health determinant data, analysis of the Victorian Public Health and Wellbeing Plan, extensive community consultation and in-depth stakeholder engagement.

The symbols below will be used throughout the Council Plan to identify actions related to our health and wellbeing priorities.

 <p>Improving mental wellbeing</p> <ul style="list-style-type: none"> Improved awareness and understanding of mental wellbeing and mental illness Improved access to mental health support services Increased opportunities for social connection and meaningful participation in the community 	 <p>Increasing active living</p> <ul style="list-style-type: none"> Increased opportunities to be physically active Accessible places and spaces that support physical activity for all 	 <p>Preventing family violence and advancing gender equity</p> <ul style="list-style-type: none"> Increased education and awareness around gender equity and respectful relationships Increased initiatives addressing gender equity Improved access to an integrated response system to support those experiencing family violence 	 <p>Increasing healthy eating</p> <ul style="list-style-type: none"> Increased understanding of healthy eating and associated health implications Improved access to safe, affordable and nutritious food 	 <p>Tackling climate change and its impact on health</p> <ul style="list-style-type: none"> Increased sustainable food production initiatives Improved understanding of how to address the impact of climate change on health

STRUCTURE OF COUNCIL PLAN

The Council Plan structure reflects the requirements of the *Local Government Act 2020* but is also arranged to group similar community priorities and activities of Council and provide easy readability and transparency.

Section 90 of the *Local Government Act 2020* states that a Council Plan must include the following:

- (a) the strategic direction of the Council;
- (b) strategic objectives for achieving the strategic direction;
- (c) strategies for achieving the objectives for a period of at least the next 4 financial years;
- (d) strategic indicators for monitoring the achievement of the objectives;
- (e) a description of the Council's initiatives and priorities for services, infrastructure and amenity;
- (f) any other matters prescribed by the regulations.

STRUCTURE OF CONTENT THROUGHOUT THE COUNCIL PLAN

The visual to the right shows the structure of content which is consistent throughout the Council Plan to represent both the legislative elements and incorporate health and wellbeing matters as follows:

- The five Themes of the Council Plan represent the high level 'Strategic Directions' of Council with four of the five Themes directly aligning with the Community Vision 2040.
- A number of 'Strategic Objectives' (21 in total) have been developed to expand on the Themes and address community priorities that were identified throughout the engagement processes for both the Council Plan 2021-2025 and Community Vision.

- The 'Strategies' for achieving the Strategic Objectives are provided in the **'What we are going to do...'** section for the four year period, 2021-2025 – this is Council's commitment to addressing the identified needs of the community.
- Council's 'initiatives and priorities for services, infrastructure and amenities' are detailed in the **'How are we going to do it...'** section. There are 83 deliverables and specific actions outlined that Council will undertake, monitor and report on regularly throughout the year to address each Strategic Objective.

- The health and wellbeing icons presented throughout the document highlight the Strategic Objectives that specifically address the identified health and wellbeing priorities of the Golden Plains Shire community (further detailed on page 23).
- At the end of each Theme, 'Strategic Indicators' for monitoring the achievement of objectives have been provided for regular review and reporting to the community. The data source is noted for each indicator.

In addition, the Council Plan document provides the Council Services, Key Council Documents/Strategies and relevant Data and Context that relates to each of the Themes.

Council's Role

The role Golden Plains Shire Council has in contributing to each of the Strategies varies and delivery of the actions is heavily reliant on community partnerships, networks, collaboration with infrastructure, service providers and businesses, and support from the State and Federal Government.

Listed against each Strategy within the Council Plan **(What we are going to do...)** is the specific roles Council plays which are defined as follows:

- **Service Provider** - Council is a leading provider of services which support these Strategies. Responsibility for providing these services is often shared between Council and other government agencies, not-for-profit organisations and commercial businesses.
- **Statutory Authority** - Council has a legislated responsibility under Victorian law to ensure compliance and delivery of services related to these Strategies.
- **Facilitator** – Council facilitates, partners and plans with other service providers to achieve these strategies.
- **Advocate** - Council's primary role is to advocate on behalf of (and represent) the community to other levels of government, service providers and business organisations around these Strategies.

REPORTING THE COUNCIL PLAN

In the interests of transparency and accountability, Council is committed to regularly monitoring and reporting progress on the Council Plan 2021-2025 to the Golden Plains community.

Each quarter across the Financial Year, a progress report will be compiled and reported to an open Council Meeting. Council will measure its success based on the Strategic Indicators and report extensively on key deliverables and initiatives under each Theme of the Council Plan through the Annual Report each year.

In addition, public health and wellbeing matters and deliverables of the Health and Wellbeing Plan will be monitored, reported and reviewed annually to ensure the health and wellbeing of the community remains at the forefront of Council's strategic planning.

In accordance with the *Local Government Act (s89)*, the Council Plan 2021-2025 will be reviewed annually to identify and address changing circumstances and continue to reflect the priorities of the community and deliver on the Golden Plains Shire Community Vision 2040.
