DEVELOPING THE VISION . . .

The Golden Plains Shire Community Vision 2040 is a plan that captures the hopes and aspirations of the whole community, and ensures we are planning for a bright future for all.

The Community Vision outlines how the entire Golden Plains community can work together towards common goals and meet the Shire's needs, both now and into the future.

The project to develop a Community Vision for the first time in Golden Plains commenced in July 2019. It was recognised as critical that the Vision engage broadly with the community to capture and represent the diverse hopes and dreams of all Golden Plains residents.

A key component of developing the Vision was the formation of a dedicated Community Reference Group (CRG). This was done via an open Expression of Interest process, and in October 2020, 11 residents from different areas across the Shire joined Council staff to undertake engagement training and co-design workshops for the Vision project.

ENGAGING THE COMMUNITY

With assistance from the CRG, community engagement to promote and capture input for the Vision from residents across the Shire was planned and undertaken during February and March 2020. Initiatives promoted via print and social media included events, community conversations, postcards, online surveying, newsletters and a dedicated student session at Bannockburn P-12 College.

The engagement focused on 4 key questions:

What I love about Golden Plains is . . .

My hope for Golden Plains in 2040 is . . .

What I would like to see in my community in 2040 is . . .

To make this a reality I am willing to . . .

534 responses (representing over 2.3% of the Shire population) were gathered from across a range of age groups, demographics and locations in the Shire. This information was presented to Council and the community via an Engagement Update in April 2020.

To represent and refine the engagement information, the Community Reference Group workshopped and analysed the data into a series of Themes and Priorities that would provide the framework for the Community Vision 2040. This was documented and presented with a series of Vision Statements to form a Concept of the Vision for further community testing in June 2020.

The Concept was distributed and tested with community groups, networks and stakeholders with opportunities for feedback and further input offered via completion of an online questionnaire. Following this phase of engagement, further refinement was undertaken by the Community Reference Group in July and August 2020 for presentation of this document - the Draft Golden Plains Community Vision 2040.
