Priorities and Drivers

Establish the priorities and drivers

The priorities identified in community plans are important as they are a key reference point in strategic plans developed by Council and the overall Council Plan. The information is highly valued by Council and is used when determining priorities for external funding and for identifying the need for specific projects and programs.

This is illustrated in the following diagram.

Vision	Small, achievable, short term	Big, complex, aspirational
People (activities and events, uses etc)		
Place (buildings, public spaces, trails, landscape etc)		

For reference here is a link to the Golden Plains Shire Council Vision 2040 that captures the hopes and aspirations of the whole community:
https://www.goldenplains.vic.gov.au/sites/default/files/GPS%20Community%20Vision%202040%20FINAL.pdf

This document has been developed to assist Community Planning Coordinators to prepare and develop their new community plans.
