TRACKS AND TRAILS
STRATEGY ADOPTED

Golden Plains Shire Council adopted the Tracks and Trails Strategy 2023-2033 (the Strategy) at its meeting on Tuesday 27 February 2024.

The Strategy was developed following extensive community engagement in January and February 2023 which involved a series of workshops, surveys, and consultations. The Strategy was further refined with input from the community in November 2023.

This collaborative effort culminated in a Strategy that addresses the direct needs of the community while focusing on several key objectives. The Strategy is supported by a Detailed Action Plan that will assist the delivery of the Strategy over the next 10 years.
